

## INTERIM USE LIMITATION AREA FOR THE DELTA SMELT

Within this area if application is made in compliance with the California Dormant Spray Regulations (3 Cal. Code Reg. §6960), do not apply the pesticides listed below within 100 feet of all water and submerged lands below the ordinary high water level, freshwater streams that drain into the Bay, and channels with tidal influence. If not applied in compliance with the California Dormant Spray Regulations, do not apply the pesticides listed below within 100 feet for ground nor within 400 feet for aerial applications of all water and submerged lands below the ordinary high water level, freshwater streams that drain into the Bay, and channels with tidal influence.

alachlor
atrazine
bensulide
beta-cyfluthrin
bifenthrin
carbaryl
chlorothalonil
chlorpyrifos
cyfluthrin
cyhalothrin (lambda)
cypermethrin
deltamethrin
diazinon
dimethoate
diquat dibromide
EPTC (eptam)
esfenvalerate
ethoprop
fenpropathrin

fipronil
fluvalinate
imidacloprid
malathion
methomyl
metolachlor
oxydemeton-methyl
oxyfluorfen
PCNB
phenothrin
propargite
resmethrin
simazine
S-metolachlor
tetramethrin
thiobencarb
